Outside bets are made on groups of numbers (eg black numbers, odd numbers). All outside bets lose when zero (0) is the winning number

HOW TO PLAY RAPID ROULETTE

WREST POINT
Come Play.

COUNTRY CLUB
Your Getaway.

THE AIM OF THE GAME

As with Roulette, the aim of the game is to guess where the ball might land on the Roulette Wheel, as a Dealer spins the Wheel in one direction, and a small white ball in the other.

In Rapid Roulette, players sit at an electronic terminal and place their bet/s via the terminal's display screen, rather than on a traditional Roulette table layout. At Wrest Point and Country Club Tasmania, a Dealer spins a traditional Roulette Wheel to determine each game's result.

HOW TO PLAY THE GAME

- Minimum and maximum bet limits are displayed on each terminal (and may change between terminals)
- Money may be inserted into the note acceptor at each terminal, and the terminal will update with a credit amount on screen. Money and/or chips may also be passed to your Dealer
- As in Roulette, players may place a bet on a single number, range of numbers, the colour where the ball may land, whether the ball will land on odd/even numbers or high/low numbers
- To place your bet, select chips in the denomination you wish to play (bottom of terminal screen) before selecting where you wish to place your chips on your terminal's virtual layout
- If you wish to move a chip, simply select the chip by touching it on the terminal screen and dragging it to a new position on the virtual layout
- A timer on each terminal's display will count down time left to place bets
- The ball will be spun around the Wheel by your Dealer
- Each terminal will be updated with winning number details once announced, with winning results credited to each terminal and losing bets taken

- To move on from a Rapid Roulette terminal select the 'Collect' button (top left of terminal screen) and the Dealer will process your payment
- Please refer to the 'Help' button (top of terminal screen) or ask your Dealer for assistance.
